BE-6001 | Fillet Washer

Next Generation of Salmon Fillet Washing.

- Hygienic open frame design.
- Low water consumption.
- Optional integrated fillet dryer.
- Optional in-line fillet packing station.
- Available with chemical dosing unit.

BE-6001

Customizable Solutions

The Beritech BE-6001 Fillet Washer not only excels in removing slime and scales but also significantly reduces product contamination, ensuring that salmon fillets are both clean and dry prior to packing or further processing. Designed with efficiency in mind, it boasts minimum water consumption, making it an environmentally friendly choice for seafood processing facilities.

Additionally, the washer can be customized with an optional integrated fillet dryer for optimal drying results, an optional chemical dosing unit for precise sanitation needs, and an option for extended discharge that accommodates 2 in-line packing stations, streamlining the packaging process and enhancing productivity.

Machine

Model	BE-6001
Dimensions LxWxH	2235 x 1100 mm
Capacity	Up to 60 fillets/min
Power Consumption	6.9 kW
Water Consumption	28 liters/min
Electricity	3 x 400V + N + PE / 3 x 220V + PE
Weight Approx.	155 kg
