**BE-5541 |
Handheld Pinbone Remover**
Semi-automatic Removal for Perfect Finish.

- Hygienic air control panel.
- For fresh or defrosted salmon or whitefish.
- Low maintenance with easy-to-clean parts.
- Attachments available for different salmonoids.

BE-5541

Handheld Pinbone Remover

The BE-5541 Handheld Pinbone Remover represents the pinnacle of semi-automatic deboning technology, designed for the precise removal of pinbones from fresh or defrosted salmon and whitefish. It combines efficiency with a perfect finish, ensuring high-quality preparation with minimal effort.

Its ergonomic design reduces fatigue, enhancing operator comfort over extended periods. Featuring a robust, stainless steel construction, the BE-5541 ensures durability and easy cleaning, meeting stringent hygiene standards. Optimized for both speed and accuracy, it significantly increases throughput without compromising the integrity of the fish.

Advanced Features

- ✓ **Safe Operations**
The safety lever immediately stops the spin wheel upon release.
- ✓ **Ergonomic Use**
Lightweight, well-balanced equipment that reduces fatigue during extended periods of use.
- ✓ **Advanced Technology**
Air consumption is minimized without an increase in operational temperature.
- ✓ **Hygienic Features**
An open design allows for easy dismantling and cleaning.

| Model | BE-5541 |
|----------------------------|--------------------------|
| Dimensions LxWxH | 372 x 386 x 296 mm |
| Operators | 1 |
| Voltage Range | 110 - 220V 50 - 60Hz |
| Power | 0.09 kW (single) |
| Controls | 24V |
| Weight Approx. | 16.2 kg |
| Water Connection | 6 mm |
| Speed | 105 - 210 revolution/min |
