## BE-1825 | Bottom Box Forming Machine

- High Capacity.
- 550 pieces in the magazine.
- Polished stainless steel.
- Controlled turning device.

BE-1825

### Bottom Box Forming Machine

The BE-1825 Bottom Box Forming Machine specializes in creating bottom boxes for 5 kg cartons, specifically designed for shell-on shrimp packaging. It features an integrated magazine capable of holding up to 550 car-

ton sheets, designed to seamlessly fit into automatic processing lines and directly supply lids/bottoms to weighing stations.

Utilizing a pneumatic system, flat carton sheets are efficiently fed from the magazine to the forming unit. Within this unit, one of two pistons undertakes the forming process. The innovative forming head expertly folds and locks the components together without the need for glue, highlighting the machine's clean and efficient operation.

Designed for exceptional user-friendliness, switching between forming lids and bottoms is straightforward. The BE-1825 stands out for its reliability and ability to consistently produce perfect boxes, operating at impressive speeds of 18 to 23 pieces per minute.

**Machine**

Model	BE-1825
<b>Dimensions</b> LxWxH	1170 x 965 x 2100 mm
<b>Magazine Capacity</b>	550 pcs
<b>Capacities</b>	18 - 23 boxes/min
<b>Air Consumption</b>	550 NI/min
<b>Power</b> 3x440V, 60 c/s	0.25 kW/10A
<b>Weight Approx.</b>	400 kg
